

I am writing to request that you NOT replace the K-LOVE radio signal by an LPFM! I listen to K-LOVE every time I get in the car, it plays all night long in my children's bedroom, and I don't know what I would do without it! It is VERY uplifting as a Christian and it is the only station I listen to. The station always seems to provide exactly what I need at exactly the right time - whether it's a certain song, or a certain scripture, or someone else's experience story that I can relate to my own experiences right at that moment. The public in general can benefit from this station in the same way! If you replace this station w/ an LPFM there will be many, many lives in the community that will not experience this much needed blessing! PLEASE LEAVE K-LOVE WHERE IT IS!!!
